EXAMINER INTERVIEW SUMMARY

This Examiner Interview Summary follows the Interview Summary mailed by the Examiner on March 29, 2005. A Reply to the last Office Action has already been filed.

The undersigned confirms that the undersigned conducted a telephonic interview with the Examiner on March 28, 2005 in which claim 1 was discussed in detail in view of a rejection under 35 USC § 103(a). Possible amendments to the claims were discussed.

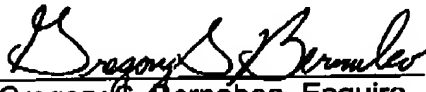

PATENT
Application No. 09/777,287

Docket No. RSW920000157US1

The Examiner indicated that amending to (1) add context to the preamble, (2) recite that the first text entry is identified based on a predetermined text entry characteristic, (3) add clarifying language indicative of a sequence in which the second text entry field is identified after the first text entry field is identified, and (4) recite that the second text entry field is identified from among a remainder of the plurality of text entry fields, would overcome the prior art of record and likely lead to allowance.

Respectfully submitted
